

Healing Card Innovations

This is a compilation of ideas from many sources for innovative ways to use Vibrational Balancing Images and Sanjeevini Healing Fragrances (Cards).

From Rhoda Reporter:

There are times when the computer is free and not being used, I just select a few SJC combos from the program and charge a picture placed against the images.

I have also charged a strand of my hair!!!

LOVE working with it, since it is so so easy!

LOVE-TOGETHER

How convenient it is to get the SW phrases for a specific issue using the VBI program.

For example VB Tired Feet MOVE-WITH-LIGHT

Very often I refer the program to get the right SW phrase.

SATYAM-TOGETHER

Take a print out of any VBI. Place that VBI against the computer screen and ALIGN it with the selected cards that come up one after the other. They are timed to make a 15 sec charge. You can also run through the cards by placing your left hand 3fingers for a body charge. I do that often just before I sleep. I pick around 8 to 10 cards and sit with my left hand 3fingers in the circle.
