

Switchword: RESTORE

by Kat Miller

RESTORE - to restore fairness; restore honesty

What is the difference between Switchphrases using RESTORE versus POSTPONE?

When someone feels negative, feels like they are being slighted, or something is evading them, when they feel injustice has been experienced, that something has been taken from them, they have lost something they deserve or once had, then RESTORE can be powerful.

When someone is holding onto something negative, almost as if they cannot live with out it, when they are focused on the negative aspects of life, then POSTPONE is to let it go.

A few useful RESTORE Switchpairs may include:

RESTORE-ACT (speak honestly)
